## Barbecue Propane Grills - [Broil King Monarch 40 Overview](#)

### Our Opinion:

It's always a good idea to make an informed choice when shopping for a product, particularly one that can be expensive and subsequently you need it to last for more than one year. So, no better way than to see what other owners of the product had to say about its quality and performance.

The 26 Amazon evaluations on the Broil King Monarch 40 Grill are really quite constructive, 22 of them are 4\* and 5\* rankings which is a very good majority. There is one three\* and three 1\* reviews. The positives are that it is considered to be very reasonably priced, it proved to be a great alternative to the bigger dearer brands for some people. It was additionally reported to cook well and evenly, the upper section where the cooking takes place is of a very good construct quality, and it was not manufactured in the Far East.

The negative points that have been mentioned were sadly that a number of them had arrived in broken condition and in some cases had components missing, this is obviously disappointing as it is no fault of the grill. A few considered the stand and wheels to be a lesser quality and could do with being more robust.

So on balance, the opinions and star ratings on this Broil King Monarch 40 Grill are very good, no doubt you'll look at other Broil King Gas Grills, plus different makes and models on the market before making your ultimate purchase decision on which is the best of all the barbecue propane grills available on the market for you.

### Broil King Monarch 40 Features:

Broil King Gas Grills proudly present the Broil King Monarch 40, and what an excellent looking grill. It is up to the task no matter if you are cooking alone or for a party. It boasts 520 square inches of complete cooking space, 350 sq. inch for the primary grilling area.

The Broil King Monarch 40 stainless steel Super 8 infinity burner will cook your meals evenly and will prevent cold spots. Searing will be no problem as you can heat this grill up to 600 degrees F in a speedy time.

The cooking grids are made from porcelain-coated cast-iron, these help keep the heat, and due to their design they help with the all important clear up too. Flare-ups are decreased because the Flav-R-Wave system, which is constructed from stainless steel, vaporizes the juices which helps to add a barbecue flavor to your foods.

You have also got the added bonus of a side burner, so you can cook up your sauces or beans for instance, but when not in use the lid closes over the burner which gives you an additional preparation area.

When you are ready to get started simply light up using the Sure-Lite rotary ignition system, it is quick and easy. There's an Accu-Temp thermometer made from stainless steel, it comprises of an inner probe which will help you to monitor the precise temperature.

The construction is sturdy, it comprises of a thick Therma-Cast aluminum oven, this will retain the heat and is anti-rust. There are shelves to help with preparation and work area, these can be dropped down when not in use, and you've got helpful hooks for your barbecue tongs and forks.

So having compared barbecue propane grills and read the features and critiques on the Broil King Monarch 40, you may well have decided on which is your best option for you.
