# Get Ready For Rocket Japanese

If you want to learn Chinese, you go for this language learning tool called Rocket Chinese from Rocket Languages. Now, what if you want to learn the language of the Rising Sun? Then, go for [Rocket Japanese](#). These two language learning tools came from Rocket Languages and they are the perfect companions for people who decide to make Chinese or Japanese as their second language or whatever the reason that they have. These two tools are not just the products of Rocket Languages. They have other products like Rocket Korean, Rocket Italian, Rocket French and even Rocket Sign Language. You can choose any of these and download them online if you also want to learn any of these languages.
